## TO THE PUBLIC.

The publisher of the NEW HAVEN CITY DIRECTORY offers the Sixteenth Volume to the public, with the assurance that no pains or expense has been wanting on his part to make it complete and reliable. Besides ordinary precaution, the proof sheets have been submitted to E. C. HERRICK, Esq., whose critical inspection has contributed much to the perfectness of the work.

Among the public improvements which have marked the progress of our city during the past year, have been the erection of a new Congregational Church on the east side of Wooster Square—the re-building of St. Thomas's Church, in Elm Street—the erection of a commodious building for the Orphan Asylum, on Maple street—a public School Building (for the Eaton School) on Jefferson street, and the Bank Building, an elegant structure, by Joseph E. Sheffield, on Chapel street.

# DAGUERREAN

# ROOMS,

# MITCHELL'S BUILDING, CHAPEL ST. NEW HAVEN, CONN.

Mr. Wells has, during the past six years, fully established the reputation for taking Daguerreotypes equal, if not superior, to those taken by the first artists of our large cities. He has kept pace with every improvement that has tended to elevate the art to its present proud position, as the most beautiful, true and accurate manner by which the likenesses of dear friends may be preserved, when the original is far away.

Mr. Wells would particularly call the attention of the public to the fact that he has lately introduced the new and

# BEAUTIFUL SCIENCE OF PHOTOGRAPHY

Which, in its splendid results, is attracting the attention of scientific men of all countries. Pictures taken by this process are without the reflection of a Daguerreotype, and can be viewed in any light. Daguerreotypes of deceased or absent friends can be enlarged and copied in a perfectly natural manner by this process, and colored either in Oil or Water Colors. Every body is invited to call and examine likenesses of our prominent men, now on exhibition at the rooms of the subscriber.
